

HYDRAULIC PUSH BACK HITCH

Hydraulically operated Push Back Hitch, where implement changes are made without leaving the cab of the tractor.

The Push Back hitch gives superior visibility of the hook and trailer ring from the cab making implement changes fast and simple.

Safe

The DROMONE Hydraulic Push Back Hitch dropdown and pick up function eliminates the need for manually lifting implements onto drawbars.

Patented latching and locking system for maximum safety.

Maximum Productivity

The hook, drawbar and 80mm ball can be exchanged within minutes, giving increased flexibility and productivity from your investment.

The tow hook can dig below ground level where implement changes have sunk into soft earth.

Increased load and speed capability gives you confidence when towing on the road.

Versatile Attachment

The DROMONE Hydraulic Push Back Hitch is compatible with the DROMONE ball & spoon system for increased versatility.

Precision engineered giving perfect fit on all tractors and minimum installation times.

Maximum Ground Clearance

Low profile design gives maximum ground clearance.

intelligent
innovation.
