### Maximum Safety

The DROMONE Mechanical Drop Down Hitch is constructed from carefully selected, high strength wear resistant materials.

Patented latching and locking system for maximum safety.

### Increased Productivity

The hook, drawbar and 80mm ball can be exchanged within minutes, giving increased flexibility and productivity from your investment.

Increased load and speed capability gives you confidence while towing on the road.

The DROMONE Mechanical Drop Down Hitch is precision engineered, giving perfect fit on all tractors and minimum installation time.

### Versatile

The Mechanical Drop Down Hitch is compatible with the DROMONE Ball and Spoon System for increased versatility.

### Maximum Ground Clearance

The low profile design of the hitch gives maximum ground clearance.

intelligent  
innovation.
